One of my favorite sayings is “it’s not a bug; it’s a feature.” However, there’s nothing much worse than a broken puzzle – that’s definitely not a feature. Sometimes in the development process there are bugs that I’ll catch out of the corner of my eye, but I can’t possibly find them all. With that being said, there would have been a copious number of bugs and a stark contrast in quality throughout the puzzles without the sharp minds of these beta testers.
